Experience

Abutech – internship / Frontend developer

November 2021 / December 2021

- Re-developed and designed the website of "Najot ta'lim" training center which has 3K+ students with a middle developer
leading the team.

- With a team of 10 backend and frontend developers, we learned how to work together and set daily goals by dividing the project into parts using task management programs such as "Slack" and "ClickUp".

Education

Najot ta'lim – Full-stack web development

October 2020 / October 2021

- During the lessons part of the course we have to build more than 20+ websites using HTML and CSS, added dynamics to them using JavaScript. The websites were built using "pixel perfect" approach. Then we learn how to create SPA using ReactJS library.

Technologies

HTML, CSS, Javascript

ReactJS

 Bootstrap, SASS, Gulp

Figma(Software)

Git(Github, Gitlab)
